### *Fountain of Youth Facial*

The anti-aging facial focuses on rejuvenating tired, sluggish skin. Using the Clarisonic brush technology, skin is cleaned and exfoliated, allowing Skin Ceuticals serums, masks and moisturizers to penetrate deeply. Skin is left feeling firmer and more hydrated with a youthful glow you have to see to believe.

### *Ultra Calming Facial*

This facial is ideal for anyone with sensitive or sensitized skin. Individuals suffering from rosacea, acne or those with skin sensitized due to retin-A may find this treatment particularly soothing. Using the Clarisonic brush technology, skin is gently exfoliated, allowing products to effectively penetrate. The Skin Ceuticals products used in the facial are designed to reduce inflammation and gently hydrate. Facial is completed with the use of high frequency to kill bacteria and further reduce redness. Skin is left feeling cool and refreshed.
